

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher divides the part into two parts. They are conclusions and recommendations. In the first part, the researcher presents the conclusions of the research findings related to the research questions. The second part contains the suggestions.

A. Conclusion

The aims of this research were to find out the students' and parents' perception of the English Village program and to find out what kinds of suggestions do English Village need to the future of the English Village program of Parit Baru. There were two research problems in this research. The first research problem was about students' and parents' perception of the English Village program. Based on the result of the research, the researcher concluded that the students' perception and parents' perception were in positive responses. The second research problem was about the suggestions do the English Village need to the future of the English Village program of Parit Baru. Based on the result, each respondent gave varied suggestions, and they also placed great emphasis on implementation time which was considered too little in their opinion. This is very useful for the English village program in the future. In addition, this research also reveals that the English Village program received a very good response, especially in building interest, introducing the new trench children to English, which not all students receive English language learning at school. So it is hoped that this program will continue for a longer time.

B. Suggestion

The recommendations are given especially to those who organize this English village program, namely the English language education study program, the new Parit Village, the tutors who teach in the New Trench, as well as to other research. The first recommendation is for IKIP PGRI

Pontianak, especially the English language education study program as the implementer of the English village program, based on the results of the research, it is hoped that this program will continue and increase the number of meetings per week. Because parents and students are very enthusiastic in participating in the English village program. For the village of Parit Baru, this research can be used as an illustration and evaluation to continue this program with IKIP PGRI Pontianak. for tutors the results of this research can be used as an evaluation for future English programs. And lastly for further research, The results of this study can be used as a reference regarding the implementation of the same program or future research needs.
