

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

The objective of this research was to describe the students' interest in MBKM program in the English Education study program at IKIP PGRI Pontianak. The data used in this research was collected by distributing a closed-ended questionnaire that asked students about the interest of their interest in MKBKM program purposes in the setting of higher education. A total of 100 students from the current academic year's all odd of the semester.

From the results of data analysis it can be concluded that student interest in the MBKM program is high, this is good because it can provide positive responses from students through a survey conducted by researchers. It can be seen from the mean score on all the data obtained, namely the mean score of 3.825. Universities must actively provide outreach to students to take part in the MBKM program so that students know and understand the ultimate goal of the program. By participating in the MBKM program, they will know the difference between their own learning system and that of others, besides that it can increase their interest in developing their talents and abilities the potential they have. With this, MBKM provides an opportunity for students in tertiary institutions, one of which is to give them the right to study for 3 semesters outside of the study program or within the study program.

B. Suggestions

Based on the result of research findings in this research would like to give some suggestion for the English education study programs, and the students, such as:

1. The English education study programs the need for related socialization Merdeka Belajar - Kampus Merdeka (MBKM) in more depth with the aim that English education students are more interested in and participate in the programs offered by the Ministry of Education and Culture.

2. The students of English education study programs. Based on data processing and research results obtained by researchers regarding the interest of English language education study program students in the MBKM program, it is hoped that students will be able to increase their enthusiasm to participate in programs that have been offered both by the Ministry of Education and Culture.
