

ABSTRACT

Riama Irawan Sinaga (321910126) : **“An Analysis of Student’s Strategies in Learning English Vocabulary “(A Descriptive Research to Eighth Grade Students of SMP Negeri 19 Kota Pontianak in the Academic Year 2022/2023)”**. (Supervised by Dr. Diah Astriyanti, M.Pd, and Elly Syhadati, M.Pd), A Thesis of English Education Program, Faculty of Language and Art Education, Institut of Teacher Association of the Republic of Indonesia (IKIP PGRI) Pontianak 2023.

This research aimed to find out what strategies students used to master vocabulary. The subjects of this research were eighth grade C students at SMP Negeri 19 Pontianak City. The sample was selected by purposive sampling. Researcher used a quantitative research approach.

To collect data, researcher used a close-ended questionnaire. The data from the closed-ended questionnaire were metacognitive strategies, social strategies, memory strategies, determination strategies and cognitive strategies.

The results of the data analysis carried out show that metacognitive strategies were the ones most used by students when studying English and cognitive strategies were the strategies least used by students.

Keyword : *Strategies, Learning English Vocabulary*
