

ABSTRACT

Amin Abdi Luhur (321710201). “**Using Worksheet in Teaching English to Students of English Village of Parit Baru**”. (Supervised by Dr. Aunurrahman, M.Pd, and Sahrawi, M.Pd, Education, Teacher Training and Education Institute of the Republic of Indonesia Teacher Association (IKIP PGRI) Pontianak 2021.

This qualitative research was conducted to determine the implementation using student worksheets used in English language learning in Parit Baru English Village. The subjects of this study were active students of class V Kampung English Parit Baru. The sample was selected using purposeful sampling.

The technique data collection technique used in this study was field notes and documentation. Field notes as a tool to collect data, this is considered important so that standard criteria for reporting qualitative research encourage researchers to include field notes collection statements in manuscripts Documentation is a way to collect data and information such as documents, images, audio, video and information that supports research

Results of data analysis show that the function of student worksheets for teachers in the process of learning English is one of the complements for teacher learning to students in addition to textbooks. Student learning outcomes after the implementation of using student worksheets in the teaching and learning process are very good and help in the English learning process. Student worksheets can improve students' English speaking skills.
